

### **Heather Aaron – Chair of Governors**

After spending all of my working life in education I am delighted to be Chair of Governors at Peel Hall Primary School.

Although I do not live in Salford, I was Head of a local secondary school for many years and so know the area well and I am committed to improving the life chances of the young people in the area.

I have extensive experience of being a governor in several schools and see this as an opportunity to share my time and skills with the staff and children at Peel Hall.

As a mum myself, I know how important it is for a school to be a happy place as well as a place of learning and the Governing Board will work hard to ensure that your child receives the education they deserve.
