

Harmful Sexual Behaviour Pathway

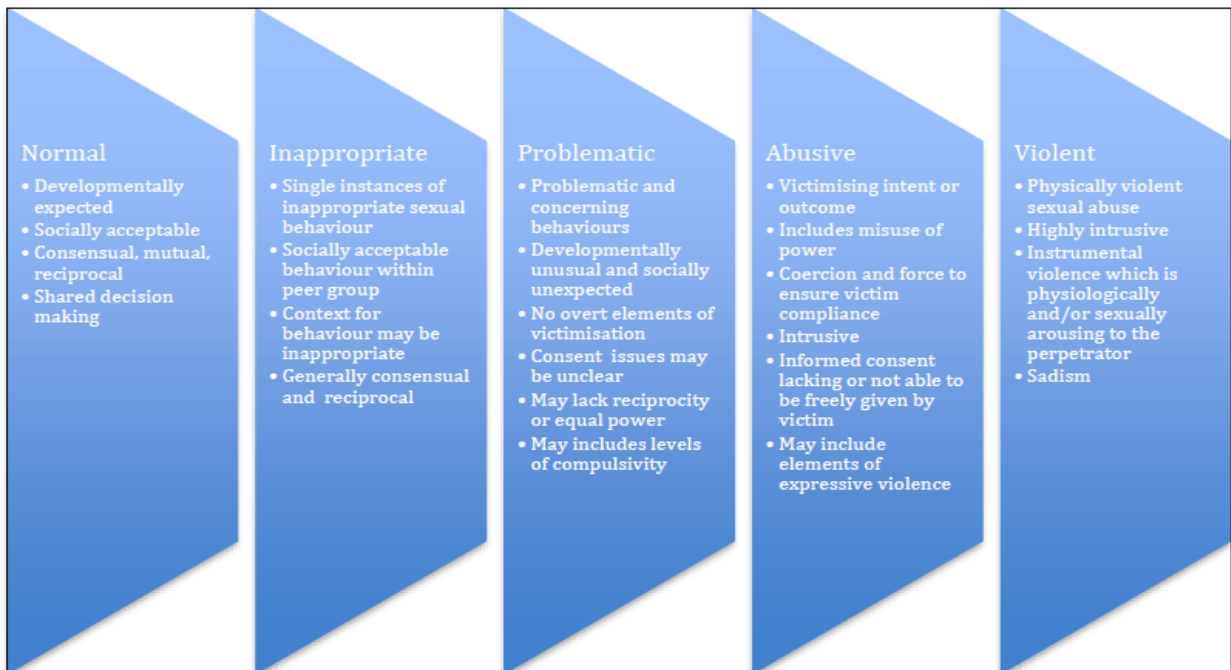

The below pathway is for professional use for those who are working with children and young people where there are suspicions, allegations made or evidence of the young person engaging in Harmful Sexual behaviour. It has been developed jointly between Salford Youth Justice Service and Salford Children's Services and is overseen by the Salford Safeguarding Children Partnership.

Harmful sexual behaviour is defined as the following:

“Sexual behaviours expressed by children and young people under the age of 18 years old that are developmentally inappropriate, maybe harmful towards self or others, or be abusive towards another child, young person or adult” (Hackett 2014)

This pathway focuses on the needs of the child/young person who is causing harm. Separate considerations need to be given to the victim of the young person in line with the SSCP guidance around Child Sexual Abuse. It is of note that there will need to be a separate strategy meeting for any victims of Harmful Sexual behaviour in order to ensure that their safeguarding needs are addressed and supported accordingly.

Hackett's continuum of sexualised behaviour can be utilised when screening cases whereby there have been concerns around this. It must be noted that developmental age will need to be considered when utilising this tool.

Initial HSB concerns are identified & a referral is made via the Bridge or to the allocated social work team

Where the presenting concerns are deemed to be not in line with the child or young persons development or are considered to be causing significant harm to others and the child/young person themselves, it is responsibility of professionals to ensure that these concerns are referred into the Bridge to allow screening of the young person to take place. They will then evaluate thresholds and consider the referral history when making a decision in relation of how is best to proceed.

Decisions made will be made utilising Hackett's Continuum of Sexualised behaviour. The duty practice manager or CPCIN Practice Manager screens the referral as Section 17 or 47.

S47 referral will lead to a HSB Strategy meeting

To establish if Section 47 Threshold is met

S17 referral passed to DAT for Children and Families assessment to be completed or consideration within the CIN/CP plan.

Advice shared with referrer and/or parent carer and consideration of referrals to universal services

These identified behaviours should sit within the normal, inappropriate section of the above continuum. Appropriate interventions should be put in place to divert behaviours.

Multi agency decision

around whether threshold is met for S47 and whether a formal HSB assessment (PROFESOR or AIM3) these cases will generally sit on the abusive/violent section of Hackett's continuum

YJS HSB consultation

Consideration whether a consultation is required with the YJS Operational manager who leads on HSB if further advice, support or resources are required

NB: Where a police investigation is live and ongoing, formal HSB assessments cannot be completed, therefore this will need to be revisited when the investigation has been concluded.

Immediate HSB specific safety planning

Safety plans to be put in place in collaboration with school professionals (HSB school safety plan), within the home (HSB home safety plan), within the community (HSB community safety plan) and/or HSB online safety planning

HSB Home safety plan

HSB School Safety Plan

HSB Community Safety Plan

HSB Online Safety Plan

Young person visual safety plan

Key considerations

- Evidence of repeated sexualised behaviours
- Number of victims
- Was violence/aggression used
- What is the age difference between the two parties (consider both chronological and development ages)
- Evidence of securing secrecy
- What was the difference in power/authority
- Is the victim vulnerable?
- Is there an identified imbalance of power?
- Was coercion utilised? Ie: manipulation, threats of force, weapons, peer pressure, blackmail, bribery, intimidation.
- Whereby a person is under the age of 13 they are never legally able to give their consent

HSB Consultations

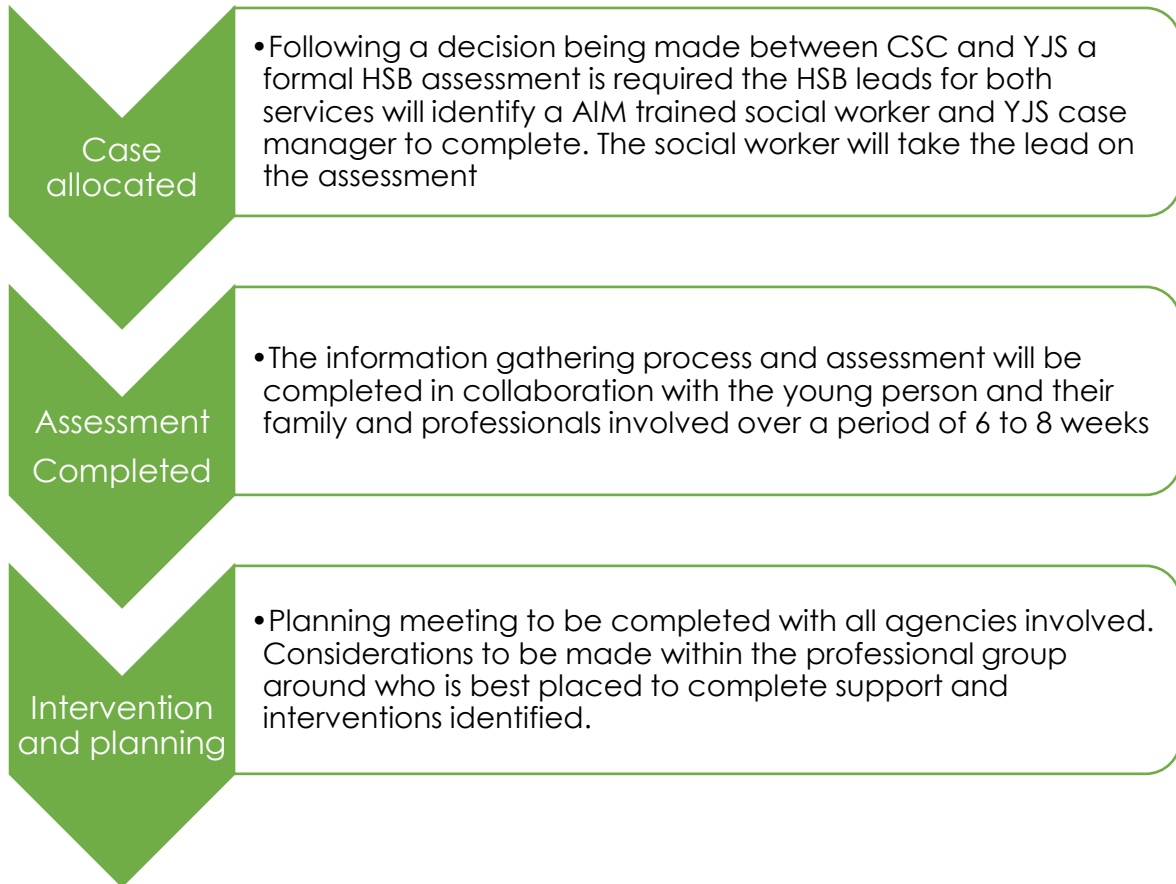

HSB Consultation Process

Where it is deemed that there is a need for further consultation, please see the above consultation process.

Where there are cases that require support for parents and/or children and young people that require further support around e-safety a consultation can be arranged directly with Terry Franke (E-safety safeguarding specialist at the Safeguarding Unit) terry.franke@salford.gov.uk.

Formal HSB Assessment

Where it is deemed that it is appropriate to progress a case to having a formal HSB Assessment completed (AIM3, AIM3 under 12's or PROFESOR assessment) the following process will be applied. Where the assessment has not been requested through the Court, Criminal pathway. With these cases the YJS will oversee these assessments. Other cases will follow the pathway below:

Specialist therapeutic or psychological intervention required.

Where the assessment identifies a need for further therapeutic or psychological or specialist support please follow the process below:

The above support will be provided on a spot purchase basis. This will need to be discussed with Practice managers initially.

Any cases where this is deemed necessary need to be highlighted with the Head of Service for Integrated social work – Alison Maxwell to agree for this work/intervention to be funded

The case will then be passed over to the commissioning team, following agreement from HoS

Forensic Child and Adolescent Mental Health Service – North West (FCAMHS)

Where there is a young person who has mental health difficulties, neurodevelopment or a learning disability **and** there are concerns about the child or young person showing behaviour that is a risk to others and/or offending behaviour a referral should be considered for F-CAMHS.

To do this you will need to contact them on FCAMHS.Northwest@gmmh.nhs.uk or 0161 3580585

Resources, Research, useful websites and further information

See below for a resource/research directory of useful websites that can be utilised when working with young people who have engaged in HSB. This list is not exhaustive. There is also resources available in the *Resources, toolkits, research and policy's* teams folder under "Harmful Sexual Behaviour". If you require further specific interventions or templates please contact the YJS Operational Manager (with HSB lead) Lucy Mitchell lucy.mitchell@salford.gov.uk or CSC HSB lead Jake Shearer (Practice Manager) jake.shearer@salford.gov.uk
